

Heavy Duty Electric Cylinder Spares: MEC060 / MEC340

This diagram is provided to assist identifying parts if replacement is necessary. Contact your place of purchase or the manufacturer to enquire about parts, availability and/or service.

Description	Part number
Anode MEC060 (500 mm Ø21 mm), includes sealing ring	20600
Anode MEC340 (1460 mm Ø21 mm), includes sealing ring	20593
3.3 kW element MEC060, includes seal	20594
4.4 kW element MEC060, includes seal	20595
3.3 kW element MEC340, includes seal	20596
4.4 kW element MEC340, includes seal	20597
5.5 kW element MEC340, includes seal	20598
Wiring harness with terminal block	20599
Element cover MEC060, MEC340	20564
Thermostat heavy duty electric cylinders (60-80 °C, ST1205113)	20572
Thermostat bracket heavy duty electric cylinders	20570
TPR valve 1000 kPa, 46 kW, 20 mm	20573

Heavy Duty Electric Cylinder Spares: MEC060 / MEC340

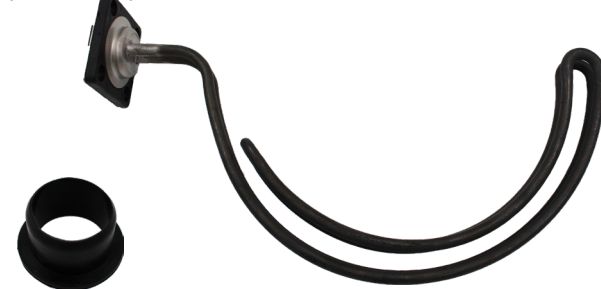

20600: Anode MEC060 (incl. sealing ring)

20594: 3.3kW element (20581) MEC060 (incl. seal)

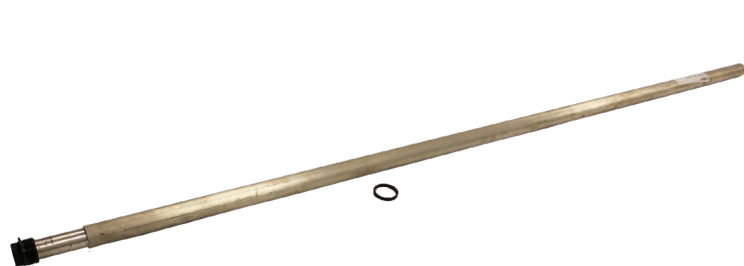

20595: 4.4kW (20583) element MEC060 (incl. seal)

20596: 3.3kW (20580) element MEC340 (incl. seal)

20593: Anode ME340 (incl. sealing ring)

20597: 4.4kW (20582) element MEC340 (incl. seal)

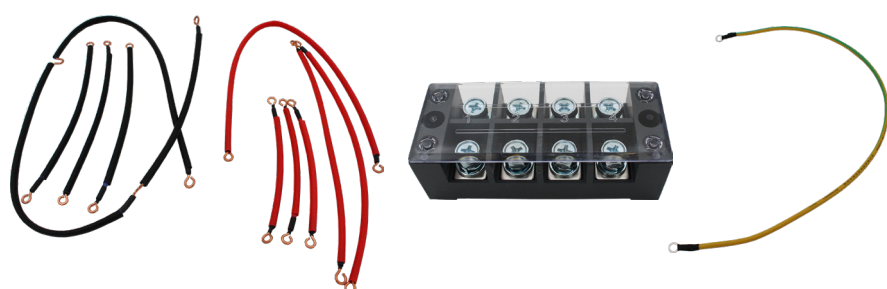

20598: 5.5kW (20584) element MEC340 (incl. seal)

20564: Element cover (both models)

20599: Wiring harness with terminal block

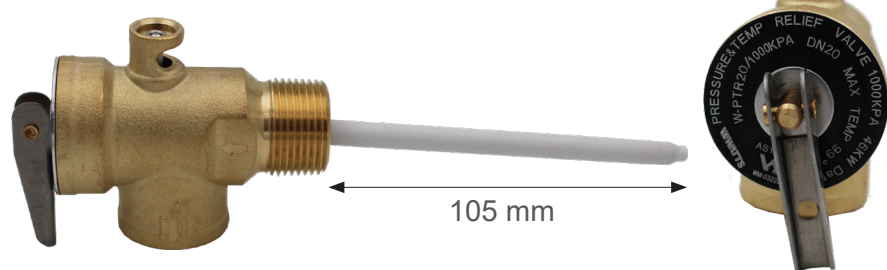

20572: Thermostat (pink dial)

Element note
The spare part number refers to the element kit, which includes the seal. The number in brackets is the element part number, engraved on the element as shown below. This helps verify the correct part is being ordered.

20573: TPR valve 1000 kPa, 46 kW, 99 °C, DN20 Male inlet, female outlet.

20570: Thermostat bracket
