

Rinnai EasySwap

180L Enamel Mains Pressure
Indoor Hot Water Cylinder

Swap cylinders, not pipework.

Introducing the Rinnai EasySwap indoor hot water cylinder, the aesthetic choice for cylinder replacements that looks as good as it performs.

Direct Swap for Existing 180L Top-Port Replacement Cylinders

Ports and diameters designed to align with typical indoor replacement installations.

Suitable for a Wide Range of Water Conditions

High quality enamel cylinder with anodic protection keeps the cylinder working reliably in a wide range of water conditions.

Sleek Colour-Coated Steel Jacket

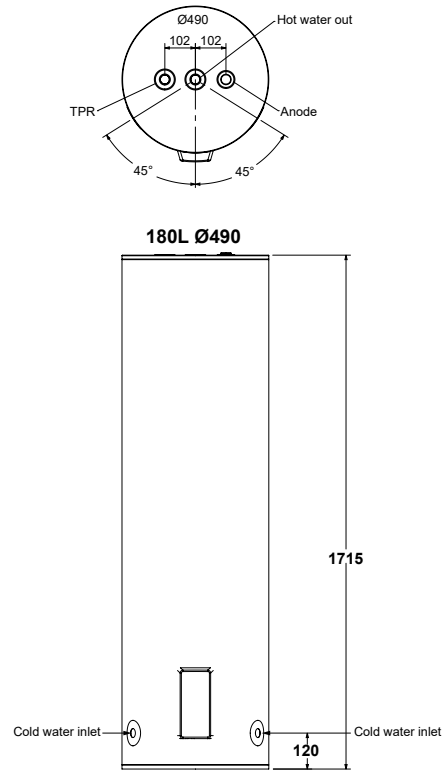

A durable colour-coated steel jacket provides a cleaner, more refined finish, helping replacement installations feel like an upgrade. (Indoor only.)

Built to Last

Durable enamel cylinder backed by a 7-year warranty.

System			Indoors Only	
Cylinder Location			Indoors Only	
Storage Capacity		Litres	177 **	
Element Size		kW	2	3
Product Specifications				
Dimensions	Height	mm	1715	
	Diameter	mm	490	
	Cold Water Inlet		1 Left, 1 Right	
	Hot Water Outlet		1 Top	
	TPR		1 Top	
Total Weight – Empty		kg	57	
Total Weight – Full		kg	234	
Cylinder Construction	Inner Cylinder		X Class Enamel	
	Outer Cylinder		Colour-Coated Steel Jacket ***	
	Insulation		Polyurethane Foam	
Mains Pressure Water Supply & Connections				
TPR Valve Setting		kPa	850	
TPR Valve			DN15½" BSP female	
Cold Water Inlet			DN20¾" BSP female	
Hot Water Outlet			DN20¾" BSP female	
Thermostat Settings			Robert Shaw black dial thermostat. Factory set to 70 °C	
Warranty				
Cylinder			7 Years Cylinder / 5 Years Labour	
All Other Parts			1 Year Parts & Labour	

* 850kPa rated for real world NZ pressure systems. Most homes operate around 500 kPa to protect tapware and appliances. EasySwap's 850 kPa rating gives you plenty of buffer above normal working pressure for dependable performance.

** Usable capacity: Actual amount of hot water that can be delivered

*** Water protection rating of IPX4

EasySwap

MEPS Compliant

NZBC G12 AS1 Compliance
